## New Products

### For 2006

### Non Toxic Weed and Grass Killer Organic Horticultural Oil Organic Deer Repellant & Organic Fungicide

This has been a very exciting year for us at Pharm Solutions Inc. We have worked diligently to complete our Organic line of products in an effort to bring you the tools you need to reduce chemical exposure for your family, gardens and personal living space. This year we have the first organic deer repellent, fungicide and summer/winter oil made with "Certified Organic Ingredients". Our line of Concentrated Organic Insecticidal Soaps for Growers are also made with only 'Certified Organic Soap and Oils', truly a first! Clearly, a step in the right direction, for us all. Used in concert with our 2005 product line, you can now depend on a delivery system that will combat virtually all the challenges we face during the growing season. Mildews, Molds, Rusts and Blackspot; Insect Pests; Weeds and Grasses; over wintering Eggs and Larvae, all fall within our scope. We hope you will use these products in good health and enjoy the season to come with abundance.

Happy Gardening  
The Staff at Pharm Solutions Inc.
